

Chem/Bio Transport Case Sampling Kit

The QSA Model 600TC Chemical and Biological Sampling Kit is a unique, field sampling collection kit. The sampling kit is contained in a mobile, rugged cart that can be decontaminated or discarded, which is ideal for “hot zone” and “down range” applications. The product includes components necessary in taking both chemical or biological samples.

The most significant advantage of the 600TC is the quality assurance and quality control which goes into the assembly of this unique kit. Items that come in contact with the chemical sample are either purchased pre-cleaned (with certification) or cleaned/screened for over 10 chemical warfare related compounds and a representative list of semi-volatile compounds (TICS/TIMS). Items supplied in the Bio Module of the sampling kit are sterile. The cleaning/screening is conducted in a certified ISO 9001:2000 laboratory.

There are enough supplies to take nine solid, liquid, or wipe samples plus nine biological samples. All tools and consumables are conveniently packaged for ease-of-access and single use.

The transport case is divided into six separate compartments to make it easy to find and to store the components. The versatile transport case can also be separated into two pieces for convenient storage. The handle on the transport case makes it convenient to push and pull the case, and; with a third wheel, the case is very maneuverable. The handle can also be lowered when not in use. Many of the basic components in the transport case are similar to the backpack model (QSA 102 Full). However, several new items have been added, based on our customer’s needs and recommendations.

Technical Specifications:

Size: 18”L x 11”W x 25”H

Weight: Approx. 32.5 lbs.

- 3-Tubing Weights
- 6-16G Needles
- 6- Sponges
- 6-2mL Transfer Pipettes
- 20-Alcohol Pads
- 30-Swabs
- 12-pH & M8 Paper on a Stick*
- 6-Scalpels
- 6-Spatulas
- 1-Disposable Underwater Camera w/Flash*
- 3-BiSKits*
- 3-SAS Kits*
- 9-Sample Jars
- 3-Bio Sample Vial Assembly
- 6-60 mL Syringes
- 12-Black Marking Pens
- 1-All Weather Pen
- 100-Tamper Seals
- 1-Pk. Potassium Iodide Starch Paper
- 12-4” Pre-cut pieces of Parafilm®
- 6-Spoons
- 1-Headlamp*
- 1-Pipette Aid*
- 6-Glass Pipettes*
- 3-7½” Shears
- 2-Wipe Extension Tools
- 2-Telescoping Extension Pens
- 6-Scoops
- 6-Extra Long Transfer Pipettes*
- 6-8” Hemostats
- 1-Set of Sampling Instructions
- 1-25’ Teflon® Tubing Supplied in lengths of:(2) 1.5’ (2) 3’ (1) 16’*
- 30-Chain-of-Custody Forms
- 1-Set of Evidence Markers*
- 10-Sample Bags
- 1-Duct Tape*
- 20-Cable Ties*
- 1-Inventory List
- 2-Ground Covers
- 24-Bleach Packs
- 10-Kim Towels
- 1-Collapsible Bucket*
- 27-Sample Labels
- 3-Trash Bags*
- 1-Chem Tape*
- 30-Closure Bags for Chain-of-Custody Forms*

* New Item
